Trend OUTLINES

Stripes are now evolving into outlines and lines not necessarily straight. Comfort in disorder did we hear? Jill Sanders, Prada, Marc Jacobs and also our own Prabal Gurung and Manish Arora have played with lines. The recent revival of interest in Indian market of Le Corbusier's furniture (seen extensively till 30 years ago in the cities designed by him) in addition to newer materials that withstand weight and pressure better is helping the trend grow. We are loving the sense of lightness that comes with it.
